

## 8DXCi Benchtop Autosampler

The DX autosampler is a durable, streamlined, integrated automation system with fully expandable hardware and software supporting inorganic and organic applications.

The 8DXCi system configurations range from a basic high-performance autosampler to a complete, easy-to-use, on-line sample preparation system.

The 8DXCi Benchtop is configured with two independently pumped rinse stations and a *FAST* vacuum pump, which makes it ready for upgrade to *FAST* and prep*FAST* automation systems.
